

Want To Know In What Capacity Taft Answers Truman Talks

BY FRED ZUSY
AP Special Washington Service
WASHINGTON, Jan. 13.—Democrats are needing Senator Taft of Ohio about his role of Republican radio debater with President Truman.

Starting with the President's message on the interim aid bill last fall, the Ohio candidate for the White House has invariably taken to the air to answer Truman's public statements. Senator Lucas (D-III) raised

the question on the senate floor, asking after Taft's last radio President's state of the union message.

Is Taft speaking as a candidate for president, as an individual senator or as a result of action taken by the senate Republican policy committee which he heads?

Why is Taft the only one, of "so many outstanding" Republican candidates for the presidency, "who apparently ever answers any of the arguments

which have been presented by the President of the United States?"

Lucas, who has been mentioned as a possible candidate for vice president for his party, told the senate:

"I don't think it is fair to Governor Dewey, I do not think it is fair to Governor Stassen and other distinguished individuals, who are out in the open seeking nomination on the Republican ticket, that our dis-

tinguished friend from Ohio should consume all the time that is being taken to answer the President."

Taft was not present during a discussion of what Senator Barkley, Democratic floor leader, termed "sort of a joint debate between the President and the senator from Ohio, who aspires to occupy the place now occupied by the President."

Senator Wherry of Nebraska, acting as GOP floor leader, was the only one of his party to

venture an answer. It was Wherry who started the discussion, by asking that Taft's most recent radio talk be printed in the congressional record, a request that finally won approval.

Wherry said he had not consulted with Taft "as to whether he spoke as a candidate or in his capacity as chairman of the policy committee."

He added: "I am, however, quite satisfied that, if I were to put the question to him, he would very frankly state that

the views he expressed represented his deep convictions on the paramount domestic and national issues involved."

Lucas asked Wherry, "Is there anyone else on the Republican side interested in the Republican nomination for president who sometimes may have an opportunity to answer the President or does the senator from Ohio have a monopoly on the privilege?"

Wherry replied he was "not speaking in behalf of any indi-

vidual who may aspire to the office. We have in the Republican party a number of men who might aspire to be President of the United States, who could very ably answer the President."

He commented later, "as far as candidates from either party are concerned in due time they will be able to take care of themselves."

Friends of Taft later told a reporter they believed the Ohioan, as "official head of the party

on matters of policy in the senate," was the "logical" Republican to answer the President's messages to congress.

They pointed out that Speaker Martin (R-Mass.), in a similar position in the house, has sometimes replied to Truman, although not with the frequency of Taft's addresses.

At any rate, one friend said, Taft has a right as an individual senator to speak up anytime he chooses, without previously consulting others.

Mother of 8 Gets Husband's War Medals

Mrs. Edward B. Healey and her eight children are shown at the Chicago Navy Recruiting office as she received the posthumous citations awarded her husband, Edward, who was killed in the Pacific theater in 1944. Comdr. A. J. Petersen presented Mrs. Healey with the Distinguished Flying Cross and the Air Medal with two stars. The children are (l. to r.) in the front row, twins Tim and Tom, 8, and twins John and Joel, 9; in the rear are, Frances, 12, Nancy, 14, Michael, 15 and Edward, Jr., 16.

Filling Station Worker, 23, Confesses To Tuley Murder

(By Associated Press)
BALTIMORE, Jan. 13.—A slender filling station attendant who likes to play the trumpet told Baltimore police last night he killed eight-year-old Sheila Ann Tuley with a kitchen knife in Cleveland New Year's day when she resisted his advances.

"She began to scream and I lost my head," Harold Beach, Jr., 23, recounted in police headquarters.

The little girl's body, the dress torn and covered with blood, was found on a neighbor's porch, less than a block from her house.

She had disappeared earlier in the day while on her way to a drugstore to get cigarettes for her father, Edward J. Tuley.

Captain of Detectives Henry J. Kriss said Beach, a bespectacled 140-pounder who stands five feet four, was arrested yesterday while changing a tire at a filling station where he had worked since coming to Baltimore Saturday.

Will Fly Back
Cleveland detectives were here to fly him back to Ohio sometime during the day. He said he was willing to sign papers waiving extradition.

He went over his story with Kriss, other police officials and newsmen last night. He smiled a great deal

and once or twice laughed out loud at questions put to him.

Asked if he understood what he had done, Beach shrugged his shoulders, grinned wryly and replied: "The most I can get is death—so what?"

Tuley, a 34-year-old machinist, said in Cleveland when told that Beach had confessed:

"If it is at all possible, I want to witness his execution. Several days ago I was quoted in the papers as saying I hoped the individual who killed my child died as horrible a death as she did. If this man is the killer, that still goes."

Beach told Baltimore police he had not come here to escape arrest. "I knew I wouldn't get away with it. I'd left fingerprints all over"—but to see his mother, who was divorced from his father when he was an infant.

He said "before all this happened, I wanted to be a musician—to play the trumpet." He told how he had learned to play the instrument while serving in a New York state institution for delinquents from 1941 to March, 1947.

Had Served Term
Beach declined to state why he had been confined, but Cleveland police said they had learned he had served a term for a sex offense on an 11-year-old boy.

Kriss said Beach gave the following details:

Around 1 p. m. on New Year's day, Beach left home to see some friends, failed to find them and went to a motion picture show. It was a double feature—"Savage Love" and "Native Bride."

He then returned home, took a kitchen knife, and once more walked out. He met Sheila Ann on 124th street, on the way to a drugstore to get cigarettes for her father.

He gave her a quarter, took her up an alley and into a back yard. After the stabbing—"I stuck her in the back near the ribs"—he put the knife in his raincoat pocket, ran home and washed the weapon. Later that night he returned to the alley to see if he could "help" the girl.

She was gone. She evidently had managed to crawl to the porch from the backyard.

An investigation into Beach's whereabouts was started on information supplied by one of his Cleveland neighbors, who reported he disappeared the day after the slaying.

Rewards totaling \$7,000 have been offered in Cleveland for the arrest and conviction of Sheila's slayer.

GRAIN BROKER TELLS DETAILS

Decares He Held Doctor's Account Open Seven Weeks

(By Associated Press)
WASHINGTON, Jan. 13.—Brig. Gen. Wallace H. Graham's broker testified today that under written instructions he held Graham's wheat trading account open until Nov. 25, 1947, seven weeks after President Truman had criticized grain speculators.

Harry Brisker, customers' man for Bach & Co. Brokers, also told the senate appropriations committee he does not remember specifically that Graham called him after the President's Oct. 6 blast against speculators and asked that Graham's grain holdings be sold.

Graham, the President's personal physician, had testified previously that he got hurriedly out of the wheat market after the President lashed out on Oct. 6 against "gamblers" in grain. He got out, he said, in a hurry.

Driver Fined \$100 After Collision

A car driven by Pete Blocco, 22, of East Palestine, collided with two other vehicles in downtown Salem Monday afternoon before he was arrested by police for driving while intoxicated.

Police said his car ran into one driven by Wade A. Loop of 1174 Cleveland st. at the corner of E. Pershing and S. Broadway and left the scene without stopping. A few minutes later, at 5:25 p. m., his car collided with another driven by Rosemary McLaughlin of 294 W. Second st. at the corner of State and Ellsworth.

Both Blocco's and Loop's cars were damaged.

Blocco was fined \$100 and costs this morning by Mayor Johnson.

Leslie B. Neely, 50, of Akron was also arrested on a charge of driving while intoxicated at 2:30 a. m. today on E. State st. near Washington ave. He was given a similar fine this morning by Mayor Johnson.

Cars driven by Joseph C. Lipplatt of 784 E. Fifth st. and Jesse D. Paxson of 673 Franklin st., collided at 6:50 a. m. Monday on Aetna st. when the Lipplatt car skidded on the icy pavement. Both cars were slightly damaged.

IKE MOVEMENT IS HOT POTATO

Boom To Put General In White House Politics' Warmest Issue Now

BY LYLE C. WILSON
United Press Writer
WASHINGTON, Jan. 13.—The Ike-for-President boom looks today like the fastest moving thing in American politics.

Gen. Dwight D. Eisenhower just about took the brakes off the movement yesterday. He avoided the direct issue raised by entry of a slate of delegates in his behalf in the March 9 New Hampshire preferential primary.

Unless the general takes himself out shortly in no uncertain language, he will be in the pre-convention campaign for the Republican presidential nomination to stay and to win or take a licking. He won't be able to control it himself.

Tobey Joins Support
Announcement that an Eisenhower delegates slate had been entered in New Hampshire was followed promptly by endorsement of Ike by Sen. Charles W. Tobey, (R) of New Hampshire.

"For some time," said Tobey, "I have been giving serious thought as to which man of the several possible candidates for the Republican nomination is best qualified to lead this nation in this time of great crisis. I have come to the conclusion that Dwight D. Eisenhower is that man."

With the issue raised so directly by a number of Washington political experts believed Ike would be smothered out on some definite statement. Perhaps removing himself from politics beyond recall.

But Ike passed it over with a statement through Army relations that he would not comment on New Hampshire developments. His spokesman said Ike previously had said he wanted nothing to do with politics and had not changed his mind.

By the time Ike's New Hampshire backers get through with that statement it will sound like a 100 per cent endorsement of their efforts in their own state and in New York.

There will be a Dewey slate of delegates in the New Hampshire primary and a slate pledged to former Governor Harold E. Stassen of Minnesota.

The big drums are also beginning to beat for Ike in Pennsylvania, one of the fat and dominant states. His supporters there announced last night that his name would be placed on the ballot in Pennsylvania's April 27 primary. There is a lot of Prairie states sentiment for Ike.

LEAVES ACCIDENT, DRAWS \$100 FINE

Seven district drivers paid fines Monday for traffic violations, the Salem state highway patrol reported.

Herman W. Brinkley, 60, of Hanoverton, was fined \$100 and costs by Mayor R. R. Johnson for leaving the scene of an accident.

John L. Ponysky, Jr., 21, of Cleveland, forfeited a \$25 bond on Monday's court after being arrested for speeding.

Frank E. Carson, 63, of Glenmore, was fined \$10 and costs by Judge Frank Grosshans of East Liverpool for speeding.

Andrew V. Havice, 19, of East Liverpool, was fined \$10 and costs by Grosshans for a stop sign violation.

Arvid Barkley, 20, of North Lima, was fined \$10 and costs by Mayor Lloyd Culler of Washingtonville for speeding.

John Solomon, 35, of Cleveland, was fined \$10 and costs by Mayor William Unger of Sebring for reckless operation.

Robert A. Miller, 17, of Wellsville, had his drivers permit suspended for 30 days by Juvenile Judge Milton C. Cope after he was arrested for reckless operation.

BUDGET FOR COUNTY UP

Real Estate Valuations Show Increase of \$4,694,700

Columbiana county's budget shows an increase of \$4,694,700 in valuations which total \$109,240,820, of which the new rates will be levied for the collection of 1947 taxes, County Auditor Irvin J. Vorndran announced today.

The budget is based on a real estate valuation of \$785,610 and increase of \$785,130 over last year; public utility valuation of \$20,702,890 which is up \$864,510 and estimated personal property valuation of \$14,681,320, up \$5,045,000, the Auditor stated.

The total real estate charge at the collection, which opens Monday, amounts to \$2,348,080.87 including all assessments and delinquencies according to abstracts in the auditor's office.

The assessment for the tax year 1947 is \$1,919,584.41, and tax delinquencies of \$428,522.46. Of the latter sum \$265,254 is included on the list of properties declared forfeited to the state in court action here last week, while the balance of the delinquency is either being paid under Whittemore contract plan, or is in the process of foreclosure proceedings.

Costs of publication of the 4700 mass list of delinquent parcels, approximately 4,000 of which were declared forfeited to the state of Ohio, amounted to \$5,332.40 it was announced today. Valuations of the properties listed was \$387,140 on which delinquencies totalled \$865,254.07.

TOY WITH NEW PLAN FOR CITY

East Liverpool Voters To Have Chance To Install City Manager Plan

EAST LIVERPOOL, Jan. 13.—A movement to establish city manager government here was disclosed today when sponsors ask the county election board for petitions to place 15 candidates for a charter commission before local voters in the May primaries.

If approved, the commission would draw up a new charter of government, incorporating the office of city manager, for submission at the polls in next November's general election.

The city now uses the mayor-council plan. A full slate of municipal officials was elected last fall for two year terms, headed by Harry C. Smith, a Republican, as mayor.

Sponsors of the new movement, operating under the name of the City Manager Charter Association, said all details of the local adaptation of the manager plan would be left in the hands of the charter commission if approved by the voters in May.

GANDHI BEGINNING NEW 'FAST' PERIOD

NEW DELHI, India, Jan. 13.—Mohandas K. Gandhi, a frail little man of 78, embarked upon a new fast today in a bid to bring peace to divided, sectarian India.

He said it "will end when and if I am satisfied there is a reunion of the hearts of all communities brought about without any outside pressure, but from an awakened sense of duty."

The Hindu spiritual leader, in his public announcement, spoke of the possibility of death. Some disciples said they feared that if he should die, India's non-Moslems would blame the Moslems and avenge him with terrible slaughter.

Dairymen To Meet Here On Wednesday

Vital dairy suggestions will be discussed when dairymen from Columbiana, Mahoning and other nearby counties meet in the Masonic temple at 10 a. m. Wednesday. Sessions will continue through 3:45 p. m.

A one hundred and seventy-five will attend the noon luncheon in the Memorial building.

Among the speakers scheduled are Raymond Albrechtsen, extension dairyman of Cornell university, Ithaca, N. Y.; Dr. R. R. Birch, head of the Veterinary college, Cornell university, and Earl E. Poling, general manager American Dairy association of Ohio, Marysville.

Dr. Fordyce Ely, recently appointed head of the Dairy department of Ohio State university, and Dr. Harry Geyer, new state veterinarian of Ohio, have been asked to speak.

Topics include "Brucellosis and Its Control," "Dairy Breeding Problems and How to Solve Them," "Methods of Cutting Feed Costs" and "Advertising and Merchandising of Dairy Products."

This event is being sponsored by a joint committee from Columbiana and Mahoning counties, including members of the Columbiana County Dairymen's Council. The agricultural extension service is cooperating.

Year '48 Turning Point In History, Speaker Declares

"This year is a turning point in history and we as American people face a great challenge, and I pray God that we meet it," were the concluding words of Helen Kirkpatrick, noted news reporter, who addressed the Salem Town Hall meeting Monday evening in the High school.

Miss Kirkpatrick, foreign correspondent of the New York Post, gave an interesting account of her experiences during the 12 years she spent in foreign countries and told some of the conclusions she has drawn concerning world affairs. She stated that the answers lie in the United States, but that we, individually and as a nation, dislike to face responsibility.

Opposite System

"We are facing Russian expansionism, we are face to face with an opposing system and there is very little difference in old and new Russia—far the Great or Stalin," the speaker declared.

Miss Kirkpatrick said that the Russians are basically a suspicious people, an outstanding characteristic of theirs and we have fed their suspicions, especially as to our use of the atom bomb. "The two countries are definitely not working for the same ends, even though we have three things in common—manpower, resources and the ability to fight if we care to." She said it is difficult to know which is the more frightened, and perhaps the hope for the world lies there.

"Communism is a disease and as we are trying to combat it, the Russians are trying to eliminate opposition," Miss Kirkpatrick said. There is no excuse today to be in doubt as to Russian plans, for they are written plainly for all to see, just as Hitler's ideas were set forth in "Mein Kampf."

The speaker explained that Russia thought that we would be fed up with the war, that we would leave Europe and the Communism would move in and fill up the vacuum left.

"The fact that Gen. Marshall required a blueprint of the plans of Europe stands as an obstacle in the path of the Russians. We must help fill that vacuum between, as we ourselves can not maintain an economic balance, she explained.

Cochran Dies of Crash Injuries

Chauncey A. Cochran, 73, of Youngstown, chairman of the board of the G. M. McKelvey Co., died Friday afternoon in the Youngstown North Side hospital of injuries sustained in an auto-truck accident Sunday night which took the life of his wife, Sarah.

He was transferred to the Youngstown hospital from the Salem City hospital Monday for an operation, but died two hours later.

The fatal accident occurred in Pennsylvania on the East Palestine-Enon Valley road. The Cochran car was struck by a 10-ton tractor-truck. Mrs. Cochran and her husband were thrown from the car and one of the truck wheels passed over the woman's body.

Cochran was widely known throughout the Youngstown district as a horseman and has been a figure at horse shows since he was a young man.

TABER SAYS ESTIMATE HIGH

Points To Appropriations Asked for Programs Not Likely To Pass

(By Associated Press)
WASHINGTON, Jan. 13.—Republicans set out today to chop some \$5,000,000,000 out of President Truman's \$39,669,000,000 budget for the year starting July 1.

The foreign aid program appeared likely to be the main target of the money saving drive.

A \$5,000,000,000 slash was the tentative goal set by Chairman Taber (R-NY) pending a meeting of the senate-house budget committee to go over details of the unprecedented peacetime spending estimate Truman sent to congress yesterday.

Cites Over-Estimates
While Taber declined to specify just what items most likely would be singled out for cuts, he noted the President's estimate of actual foreign aid outlays during the year and his requests for funds to finance other projects not yet authorized by law run well over \$5,000,000,000.

For example, he said, the President wants half a billion dollars to finance universal military training legislation, which congress has not enacted and which some of its top leaders expect it to put aside for at least another year.

Taber pointed out that while the Marshall plan for European recovery contemplates a \$5,000,000,000 appropriation for the first 15 months, the budget says only \$4,000,000,000 of that sum will be spent during the 12 months starting July 1.

The New Yorker termed even that "too much."

And, Taber added, "the President's proposals for huge outlays for education, social welfare and housing, just to mention a few, seem way out of line even if congress does authorize these programs."

Whatever the decision on his \$5,000,000,000 goal, Taber said he "wouldn't be satisfied with anything less" than a cut of \$4,500,000,000.

Republican leaders are determined to ram through an income tax reduction bill this year that may trim by more than \$5,000,000,000 the \$44,477,000,000 in revenues estimated by Truman for the next fiscal year.

STOFFER PENSION CASE CONTINUED

No decision was reached Monday evening by the Salem police pension board regarding the pension request of former Chief Ralph N. Stoffer.

The case will be continued until the board's next meeting, Feb. 9.

The ex-chief, who has filed application for \$50-a-month pension on the basis of 15 years of service, resigned June 1, 1946, the day after Stoffer was involved in a shooting scrap at Deerfield.

Members of the police pension board include City Councilman Ned Massa and Harold Asby, Chief Ned Gaunt and Capt. James Hassey of the police department and Louis Mattevi and Lorin Schaefer.

Dollar Signs in the Wind

The President's budget message is tougher stuff than his message on the state of the union. Arithmetic is a hard master.

There's no easy uplift for weary citizens in 11-digit sums that show what's happening to the United States in terms of financial reality. They merely reveal what has happened and is likely to happen. The nation has been using its wealth to support an ever-increasing rate of government spending. It is sailing closer than it ever sailed before to the rocks of the loose fiscal policy that Franklin D. Roosevelt feared before he himself became chief executive and adopted the doctrine that American dollars were inexhaustible.

Aside from partisan attack and defense, from empty promises and harsh predictions, this is what the budget message means:

The government wants to spend about \$280 per capita in the fiscal year starting next July 1. Approximately \$200 of this represents the cost of past wars and defense against future wars. The rest—about \$80—represents the cost of government itself.

In other words, if war spending could be taken out of the new budget represents the cost of government itself.

In other words, if war spending could be taken out of the new budget of \$39,669,000,000, or if defense could be reduced to \$4,000,000,000, the estimated cost of the Navy department alone, the federal budget would be reduced to a total comparable to that before World War II.

With a vastly higher level of income to support government spending, the tax burden then would be negligible. Taxes could be slashed ruthlessly, and there still would be a surplus for debt retirement. It isn't the cost of government that has been running away, though it has risen by a substantial amount, due partly to inflation. It's the cost of modern militarism.

The question is whether the budget proposed is too large and therefore can be whittled down. The answer is that every budget can be trimmed if it has to be. It's human nature to ask for the maximum, in the hope of getting the minimum. Mr. Truman's budget can be shrunk.

But it will be a miracle if any substantial reductions can be made in it because of the lopsided proportion represented by war and defense costs. What savings congress will make probably will be in appropriations for the ordinary functions of government, and in an election year many congressmen will be in a mood to add padding, not take it away.

Furthermore, as was demonstrated last year, cuts are likely to be offset by new spending. The public gets the impression that money is being saved, but when the final totals are reached most of the savings disappears.

In 1916, the per capita spending of the federal government was less than \$10 a year. For strictly government purposes, per capita spending now has reached about \$150—15 times as much—and will go higher to whatever extent the federal government is given greater responsibility for welfare. This is aside from the staggering costs of past wars still unpaid for, present insecurities and future defense.

The wealth of the United States is being consumed by non-productive activities; that is, by activities that produce no wealth to replace that which has been used up. Arithmetic is a hard master. It isn't interested in politics, either domestic or international.

No More Free Rides

No one will quarrel with the President's request for amendment of the Servicemen's Readjustment act to prevent the misuse of G. I. educational funds for frivolous purposes. Classes in dancing, aviation and bridge have attracted applicants in such numbers as to assure the nation a gut of aviators, dancing masters and bridge teachers for years to come if only a fraction complete the courses.

It is unfortunate that stricter surveillance wasn't possible before this, for the harm has been done. Veterans' college, school and job training is declining, with the figure expected to drop below 500,000 by autumn.

No one begrudges veterans the right to training that will prepare them for good-paying jobs, but the law's intent has been twisted by some who hopped aboard for a free ride at government expense. There still remains the task of deciding what are "constructive education and vocational programs." Arriving at decisions like that makes the job of Veterans administration director one of the most thankless in Washington.

Big Jobs, Low Pay

Another example of government failure to provide adequate pay for men in top-level posts comes to light with the appointment of Gen. Laurence S. Kuter as Civil Aeronautics board chairman.

Pay for the C. A. B. chairman normally is \$10,000 a year, less than is paid a regularly employed airlines pilot. In Gen. Kuter's case, however, congress has been asked to pass a special law to preserve his "military status and prerogatives" while freeing him from "supervision and control" by the military. Thus it will be possible for him to take the post without the pay cut that would come if he were to lose his military pay and allowances.

Other important government posts can't be filled by such a stratagem. Instead, they are vacant or are filled by men who eventually yield to the more profitable offers of business or industry. That's the way it will be until a more liberal pay scale is drafted for important governmental posts.

Strange Bedfellows

It will be interesting to see whether Candidate Henry Wallace turns out to be one of the best friends that the supporters of Universal Military Training have found. For Mr. Wallace is fighting UMT. So are the Communists, who are lined up behind him. So also are a number of important, conservative congressmen.

We wonder if those legislators may not find it in-

creasingly embarrassing to be seen pulling the same oar with Candidate Henry, and so wind up pulling for UMT instead.

The Stars Say

BY GENEVIEVE KEMBLE
For Wednesday, January 14

A sudden turn of the wheel of fortune, quite unpredictable and unforeseen, may prove dramatic and of far-reaching consequence, not only on the business life but in relation to romance and adventure. Sudden decisions as to moves, journeys and the formation of new ties or affiliations, call for common sense as well as thrills.

Personality and charm might enhance ingenuity and skill in putting over fresh ideas, but "look before you leap."

Those whose birthday it is may anticipate a sudden and quite unpredictable opening, in which important change, journeys or ventures might involve the personal or romantic life as well as business associations.

New ties seem to be born of exceptionally bright ideas or revolutionary propositions, of far-reaching significance. But practical and sensible developments should amplify all plans for dramatic and romantic experience. Calmly consider before drastic moves or hazards.

A child born on this day should have a fine creative or scientific urge for the unusual and should enjoy an adventurous and romantic career.

ONE MAN'S OPINION

There is a report that the whole continent has been shaking for two weeks . . . about since the third party announcement.

It is uncertain whether the tremors are due to a fault in the earth or to the fault Henry found in the Democratic party.

It is true that there have been sounds of running feet since Henry's announcement but seismologists should be able to tell the difference between earthquake and manquake.

In Tokyo, Tojo's trial hasn't ended yet but he's having a little difficulty convincing the winners that the losers were in the right.

GUARDING YOUR HEALTH

A Distressing Skin Condition

By HERMAN N. BUNDESEN, M.D.

In certain people the fat secreting glands of the skin tend to be easily stimulated into over-activity. This may—and often does—result in a widespread and distressing inflammation of the skin, with the formation of greasy scales.

The condition may first become a problem during the adolescent or maturing period, but it is not by any means confined to that age. We still do not understand the causes which bring out the harmful activity of the fat glands. It is evidently not due to an infection, neither does it seem to be related to disturbances of the glands of internal secretion. Diet may be a factor.

Underlying Causes

As usual, when underlying causes have not been found, no one sovereign remedy has been discovered either. Instead, various measures have been tried, nearly all of which give good results in some cases, but none of which helps all who are afflicted. Some patients do better with a diet low in fats. Others may benefit from a restriction of the starchy foods and sugars. In an occasional instance, large amounts of the B-complex vitamin may help and injections of the liver extract have also been found beneficial.

Since none of these methods of treatment can be relied upon to bring about improvement in all cases, local treatment of the skin eruption must be employed. As a wide variety of substances are available for this purpose, the physician must decide which one will be the most beneficial in a particular case. Such things as sulfur, salicylic acid, resorcin, ichthyol and various tar preparations have been used alone or in combination.

On the Scalp

The rash is often present on the scalp. Lotions containing mercuric bichloride, resorcinol or phenol and salicylic acid are frequently helpful in the treatment of the scalp. Sulfur, ammoniated mercury, or tar creams may be used in the more stubborn cases.

If the face is affected and ointments are used on the scalp, they should be employed in half strength.

Sheriff Ordered To Submit Bills

LISBON, Jan. 13—A controversy between the offices of the Board of County Commissioners and the sheriff's department culminated in a meeting behind closed doors in the commissioners' office here Monday.

Following the caucus, commissioners adopted a resolution, as follows:

"That the sheriff be requested that beginning Jan. 1, he shall submit his expense account with bills for payment every month; also that old accounts be itemized and presented for payment by Feb. 15."

Adoption of the resolution resulted, commissioners said, because of the sheriff's refusal to submit bills in his expense account for payment, some of which date back 26 months.

Army Barge Sinking Near Alaskan Isle

SEATTLE, Jan. 13—Coast Guard headquarters announced today a self-propelled Army barge, with an unknown number aboard, was reported sinking near the Alaska peninsula.

The Coast Guard said the barge, the BSP1927, ran into trouble while enroute to the aid of the Aleutian Mail, which ran aground yesterday morning on the south-west tip of Unimak island.

The distress call from the barge was reported only a short time after the Coast Guard said it had been expected to reach the Aleutian Mail at 3 a. m.

The cutter Clover, which had been dispatched yesterday to pick up the crew of the Aleutian Mail, was ordered diverted to the aid of the barge.

Ship in Flames

Five rescue ships were racing to the Army transport Joseph V. Connolly (cross), which radioed from 900 miles east of New York that an engine room fire raged out of control and 46 men were abandoning ship. The vessel was en route from New York to Antwerp, Belgium, for a cargo of war dead.

SAYS KILLER WAS QUIET, MUSIC LOVER

CLEVELAND, Jan. 13—"He loved to roll dice, drink cokes and listen to trumpet music on the juke box," was a delicatessen operator's word picture today of Harold Beach, 23-year-old admitted slayer of Sheila Ann Tuley.

That description was drawn by Anthony Lanese, 29, who said Beach used to frequent his shop, sometimes gulping down three or four bottles of soda pop at a stretch.

"This fellow seemed to live in a world of his own," Lanese went on. "He was always by himself. I never saw him with a friend, although he used to come in here twice a day to listen to the juke box. He loved Harry James."

"He said he tried trumpet music, but had to give up because his lips twitched."

Last summer young Beach worked as an usher in the Ambassador theater, not far from where the little Tuley girl was found dead.

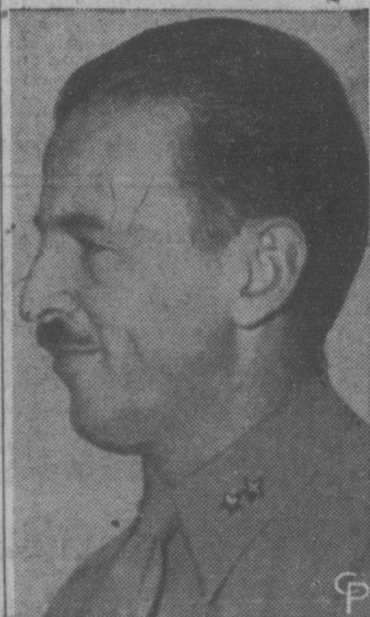

H. B. Sigman, manager of the Ambassador, said of Beach:

"He was very quiet. We never had any complaints about him. He quit without any notice to us and we never saw him again."

THE FIRESTONE ELECTRIC CO.

SALUTES HOTPOINT ON ITS MOVE TO CURB INFLATION BY REDUCING APPLIANCE PRICES NOW!

We Are Proud To Join Hotpoint — One of Nation's Largest Appliance Manufacturers — In Fight To Preserve The Purchasing Power of The American Dollar, By Announcing Price Cuts of As Much As 10% On America's Finest Electric Ranges, Refrigerators, Disposals and Water Heaters.

Inflation is very much like the weather in that everybody talks about it, but nobody does anything about it. But now the Firestone Electric, with Hotpoint — builder of America's finest electric appliances — is doing something about it — namely, reducing prices on electric ranges, refrigerators, Disposals and water heaters.

Price reductions at a time like this, when appliances like these are so scarce, is news in itself. But all the more noteworthy is the fact that these price reductions — which run as high as \$20 on some models — are made in the face of the biggest demand for Hotpoint products in the company's history.

Certainly, this is proof that this move is made purely in the public's interest. We consider it an outstanding example of the kind of business statesmanship that has made America the country that it is today and the kind that will continue to lead the way to future greatness.

The Firestone Electric Store heartily subscribes to this courageous move of Hotpoint's... and is glad to be the first in Salem in this crusade to cut the cost of living.

Tribute To Mrs. Dyball Read At Music Study Club Meeting

A tribute to the late Mrs. E. E. Dyball in the Ohio Music Club magazine was read by Mrs. Charles Cornwall, secretary, at a meeting of the Music Study Club Monday afternoon, with Miss Emma Kenrich, hostess at the home of her sister, Mrs. R. W. Hilgendorf, Franklin st.

Mrs. Dyball was president of the Salem club at the time of her death last summer.

A paper on "Gluck, Von Weber and Mozart," prepared by Mrs. Vesta King, was read by Mrs. Raymond Stiver.

Two ballets from Gluck were played by Mrs. Donald Dusenberry and Mrs. Homer E. Taylor and Miss Helen Derfus gave a report from the Musical America magazine.

An aria, "Deh Vieni, Non Tardar," from "The Marriage of Figaro" was sung by Mrs. Walter Hofmeister, accompanied by Mrs. Taylor.

A piano duet, overture to "The Magic Flute" (Mozart) by Mrs. Dusenberry and Mrs. Taylor, concluded the program.

Committee Named

The president, Mrs. Nell Knowlton, appointed a committee on revision of rules and bylaws comprised of Mrs. J. W. Astor, Mrs. F. J. Stoudt, Mrs. M. P. Livingston and Mrs. Anthony Woins.

Mrs. Livingston presided at the attractively-appointed refreshment table.

The annual get-together of the Travelers, Book and Music Study clubs will be held at 2:30 p. m. Monday in the public library assembly room.

On Monday evening, Jan. 26, the Music Study club will entertain the Junior Music Study and the Mu-

sical Culture clubs, the place to be announced later. The program will be given by the guest clubs.

Class Members Honor Mrs. McDaniel

Mrs. A. J. McDaniel, teacher of the Willing Workers class of Trinity Lutheran church, was surprised with a shower of beautiful gifts when the members celebrated her birthday anniversary at a meeting Monday evening at the home of Miss Janet Youtz, S. Union ave.

Mrs. Everett Jackson (Jerry Knight) and Mrs. Allen Shallenberger (Georgiana DeRhodes) were presented wedding gifts.

Shirley Izenour conducted the devotions and Doris Eytan gave a story entitled, "An Adventure in Giving."

The members passed a resolution to make the class "the best possible in '48." Motto chosen is "never be late in '48."

As an Easter project, the class plans to give a basket of provisions to a worthy family.

Mrs. G. D. Keister was a guest. Games and music helped make the occasion enjoyable. A decorated birthday cake was served with the refreshments.

The next meeting will be held Wednesday evening, Jan. 28.

* WE, THE WOMEN

BY RUTH MILLETT

SHE selects her friends as carefully and calculatingly as she does her clothes.

She can always count on good old Marge to fill in at a party at the last minute or to keep the children when there's baby-sitter trouble. She couldn't any more get along with-

out Marge than without her every-day tweed suit.

Then there's Julie. Julie is substantial, like the basic dress that is the backbone of her wardrobe. Julie is charming and her background is impeccable. Julie is useful in many, many ways—her basic friend.

And there's Anne. Anne is for important occasions, like her best dinner dress. She trots Anne out when she really wants to impress someone. Anne isn't for every day, but perfect for a party.

There are quite a few others—mostly fill-ins. Like the clothes she has bought from time to time. You probably know at least one woman like her.

DON'T BE USED

But don't let her make you a part of her social wardrobe. It's foolish to let a calculating woman use you.

And yet, strangely enough, such women never have much trouble keeping up their social wardrobes. They shop around and choose, but the Marges and Julies and Annes never suspect. Yet, they are merely there, like clothes, for what they are able to do for her.

Jimmy Yates, Mother Feted On Birthdays

Jimmy Yates, son of Mr. and Mrs. Leonard Yates of W. Fifth st., celebrated his sixth birthday Monday afternoon when 14 boys enjoyed a party at his home in his honor. He received many gifts.

The boys played games and prizes were given. Mrs. Yates served lunch and individual cakes with candles were set at each place. The color scheme was pink and white.

Mrs. Yates was given gifts following an evening dinner commemorating her birthday, which is the same date as her son's. A large cake was used as the attractive table centerpiece.

The immediate family was present, and Helen Yates of Detroit, who has been visiting relatives here, was a guest.

Mrs. Layden Hostess To Church Guild

Mrs. George C. Beebe was a guest at a meeting of the Wesleyan Service guild of the Methodist church Monday evening at the home of Mrs. Paul Layden, Albany rd.

Projects for the year were discussed as outlined by the president, Miss Alice Whinnery.

Refreshments were served to 16 guests.

A meeting on Feb. 9 will be at the church.

Feted On Birthdays

The home of Mr. and Mrs. Edward Radler, Jennings ave. was the scene of a delightful dinner party Sunday, when members of the Horning family gathered to celebrate the birthday anniversaries of Mrs. Arthur Horning, Sr. and Mrs. Radler. Two decorated birthday cakes graced the table. The hours were spent informally.

The Cheerful club will hold its 22nd anniversary dinner at 6:30 p. m. Wednesday at the Wee Farm. This is an annual affair for interested members.

Miss Pearl Butz of E. Third st. is spending a few days in Canton with her sister, Mrs. James Briggs.

Miss Ella DeRhodes of Franklin Square is ill at her home.

Bary Ensemble Plays Thursday at High School

Five young women, each an artist in her own right, make up the Bary ensemble which will play here at 8:15 p. m. Thursday in the High school auditorium for members of the Northern Columbiana County Concert association.

They have toured from coast to coast with their unusual program of ensemble and solo performances on the piano, violin, cello, viola and clarinet.

Gertrude Bary, pianist, is founder of the Bary ensemble. Although her solo recitals here and in Europe have been acclaimed by critics, she also has had an outstanding career with noted chamber music organizations. She is well-known to radio listeners.

Violinist Mary Becker began her professional career at 14. After five transcontinental concert tours, she made her New York

Columbiana Banquet Held By Firemen

COLUMBIANA, Jan. 13 — Sixty were in attendance at the annual turkey dinner Friday evening for members of the Columbiana volunteer fire department and their wives. The dinner was served in the American Legion home, by the post auxiliary.

Entertainment included vocal music by a male quartet consisting of A. L. Wells, Walter McCaughy, Charles Adams and George Norris, with games and other diversions following the dinner.

The firemen elected Lawrence Davis a trustee for three years, and Harvey Hisey chief for another year, a position he has held a number of years. Other officers elected for a year are: First captain, Ernest Werner; second captain, Lester Harold; secretary, Charles Rohrer; treasurer, Arthur Myers; chief ladderman, Marcus Hum; property man, John Dowd.

Church Meeting
The session of First Presbyterian church will meet Wednesday evening.

The prayer study group of the W.S.G.S. will meet at the Methodist church Wednesday morning at 10. The executive board will meet at the church Thursday evening.

Fire Damages Home
Fire from a defective flue damaged the home of James Rhodes at the northwestern edge of town Saturday night, but the fire department kept it confined to two upstairs bedrooms, with slight damage to the attic.

Mr. Rhodes was down town and Mrs. Rhodes was at home with the five children when the fire was first seen. One of the children went to the home of Rev. Leroy Antram.

Their nearest neighbor, and telephoned for the fire department.

Neighbors removed the household effects from the first floor. The damage upstairs was mostly from water. Fire Chief Harvey Hisey did not estimate the loss which he said was not serious.

The weakened chimney had suddenly come apart in an upstairs bedroom and permitted the flames to escape.

W. C. T. U. To Seat Members
The W. C. T. U. decided at its January meeting Friday afternoon

to continue this year its drive for new members. There were 16 members and one guest at the meeting which was held at the home of Mrs. Glenn H. Everitt, Court st.

Mrs. Abbie Hollenshead is president. Mrs. T. B. Hyland, county president, asked members to bring to her home worn-out hose, to be sent to the Dayton soldiers' home, where they are made into rugs. A social period followed the formal meeting. The February meeting will be held at the home of Mrs. Hyland, and the March meeting at the home of Mrs. Norman Detwiler.

Didn't Know About Cotton
The youthful Army officer said he didn't know cotton was regarded as a commodity and had thought he was correct when he said in a public statement that he had gotten out of the commodity markets.

Chairman Ferguson (R-Mich) of a sub committee investigating speculation asked Graham when he had told the President about his dealings.

"Not until all this business was finished," Graham replied. "What did you tell the President?" Ferguson asked.

"I don't know what I said," Graham replied, his voice dropping. "It was pretty rugged that day."

EASTERN AIRLINE PLANE CRASHES

WASHINGTON, Jan. 13 — An Eastern airlines plane with nine persons aboard crash on the outskirts of Washington during a rainstorm early today, killing five and injuring four.

The plane, enroute from Houston, Tex., to Boston, plowed into a grove of trees on the Maryland side of the Potomac river a few miles from the national airport shortly after reporting it was coming in for a landing.

The twin-engine DC-3 was demolished, but there was no fire, Eastern airlines said the cause had not been determined, adding that the pilot checked in with EAL by

radio at 4:27 a. m. EST. but failed to make contact with the airport control tower later as scheduled.

The dead were three passengers, the pilot and co-pilot. Three injured passengers and the flight attendant were taken to casualty hospital in Washington.

Rain, slush, and muddy roads in the area hampered police and others in rescue work.

The Nation Today

By JAMES MARLOW

Yesterday President Truman sent his budget and a budget message to congress.

You'll be hearing about the budget for months because congress will be working on it for months. It means this:

1. In the message Truman says how much the government will cost to run the government another year.

2. He has backed up the message with the budget itself. A stack of figures—in a volume thicker than a big telephone book—for each department.

Since money for running the government has to be approved by congress, the budget will be congress' baby from now on.

From now until June it will try to see how the government can be run on less money than Truman says it needs.

It will check on each department, one at a time, and in the end vote what it thinks is enough money for each one.

HERE'S WHAT lies behind the budget and the work ahead:

Under a law passed by congress in 1921 the President must send his budget and budget message to congress when it comes back to work each January.

He doesn't ask the money for the year starting Jan. 1 and ending Dec. 31. It is for the fiscal year starting July 1 of one year and ending June 30 of the next.

The budget Truman sent to congress today is for the fiscal year 1949. It starts July 1, 1948 and ends June 30, 1949.

The job of gathering and checking on the money needs of each department goes on for months before the budget is sent to congress.

The figures in the budget include things like salaries, office expenses, foreign aid, and running the various departments like state, Army and Navy.

As each department finishes its figures, it turns them over to the budget bureau which is boss of the budget.

The experts in the budget bureau then call in the department heads to show why they need so much for this, so much for that.

Those experts then try to trim the departments' figures. They keep the President advised of what they're doing.

FINALLY, THE budget bureau puts all the figures together in one

fat volume and turns the whole thing over to the President.

Then he turns the budget over to congress—as he did today—with his budget message which is his explanation of why he thinks that much money is needed.

Once congress gets the budget, it starts to work. Or, rather, congressional committees do, one in the house, one in the senate. They're called the appropriations committees. By custom, the house committee starts first.

They hold hearings. The hearings will go on until next week. One by one each department's figures are examined.

The committees, sitting around a table, call in the department heads, one by one, to explain or justify the money they say they need.

Almost everything said at these hearings is recorded by stenographers. The testimony fills many volumes and many thousands of pages.

The committees check and whittle on the President's budget figures, trying to cut them down and so cut down the cost of running the government.

THEN THEY'VE finished with a department, the committees draw up bills which they send up to the full house and senate for debate and vote.

In these bills the committee say how much they think each department needs. The house and senate bills on any one department pretty often differ.

Very often the house and senate cut down the amount okayed by

The answer to this is also in the President's message. He tells how much the government expects to collect in taxes

the year. Unless congress can spending less than the in-

Fisticuffs Recorded At Navarre, Dover; Salem One Of State's Unbeaten Outfits

By FRITZ HOWELL

Ohio AP Sports Editor

COLUMBUS, Jan. 13.—Fisticuffs, forfeits, pop bottles, snowballs, scoring mixups, scoring sprees, setups and upsels featured Ohio's scholastic basketball program, last week as the Buckeye boys offered a cage carnival with more angles than an octagon.

Biggest rumpus popped up at Navarre where East Canton battled the home towners for the Stark county Class B league leadership, but there was another at Dover as Newark Wildcats grabbed a 43-43 verdict sending them into the loop lead in quest of their third straight central Ohio league crown.

At Navarre, with five minutes to play and East Canton leading 30-20, a Navarre player, who had been ejected for personal fouls, became entangled with an East Canton player who was scrambling for the ball with two Navarres.

The player duel sparked a floor fight in which players and fans participated. Several spectators were felled. When quiet was restored, and the fans herded back to their seats, someone punched someone else, and the crowd surged to the floor again.

At that point the lights were turned out, a deputy sheriff assigned to the game called for reinforcements, and the referee forfeited the game to East Canton by 2-0. When police reinforcements arrived peace had been restored and everyone was enroute home. Navarre officials expressed regrets over the incident.

At Dover, as Newark rolled out front in the latter half of the game, rowdies tossed snowballs at the players, and several pop bottles were rolled onto the court. Just before the finish a foul was called on a Dover player, but when the crowd boiled out on the floor, Newark didn't get a chance to shoot for the point—which it didn't need.

Down in Athens county, they don't know yet who won the Class B league game between undefeated Shade and Troy High of Coolville. The scoreboard showed a 41-40 victory for Troy, but Coach Robert Bobo of Shade said a player check showed a 40-39 win for his team. Both scorebooks were forwarded to Commissioner H. W. Emswiler by Referee Burton Massey and Bill Inban, and "Emmie" will decide the winner.

Meanwhile, Middletown's mighty men, winners of the Class A state crown three of the last four years, rolled on to their eighth straight victory with a 70-59 victory over Monroe, the Middies' highest score in 27 years. Back in 1921 Middletown tacked a 75-14 setback on the Cincinnati University reserves, but dropped a 17-13 verdict to

Hamilton the following week.

Findlay, semi-finalist in the 1947 Class A fight, now has 11 straight after defeating Bowling Green and Lima South last week, and the Terrific Trojans are counting on reaching tournament play with a string of 19 wins. Findlay, averaging 50.1 points per game, against 25.1 for the foe, has an all-senior front line.

Other Class A squads with perfect records include Columbus St. Charles (9); Ashland and Pomeroy (8); and Toronto, Massillon, Salem and East Palestine (7).

In Class B, the undefeated contingent includes: Rockford (13), Carbon Hill (12), Bremen and Ridgeville Oilers (11), Newton, Kingston and Enon (10), and Mansfield Madison (8).

Once-defeated Class A clubs include Hamilton Catholic, Mansfield, Columbus Central and Portsmouth. Class B clubs with a lone loss include Minster, New Concord, Blanchester, Louisville, Canton Township and Fredericktown.

DISA AND DATA: Bob Payer, Salem's 6-6 center, made good on 10 of his first 11 shots against Ravenet, wound up with 27 points in the 67-43 victory, and has 141 for seven games. Sonny Campbell, Carbon Hill, and Bob Doup, of Amity won games single-handed last week. Campbell scored 27 in the 61-43 win over Union Furnace, and Doup set a new Knox county record of 27 in a 35-25 conquest of Bladenburg Gaykades. Coach Carl C. Bachman, now in his 14th year at Findlay, has seen his Trojans win 195 while losing 66.

Cecil Cartwright, Wilmington's fine center, broke a bone and tore the ligaments in his right ankle while warming up last week, and is out for the season. Add heroes —Chuck Gale of Massillon made two game trying free throws in the last six seconds, kept the score tied with another charity toss in the overtime, and then connected for the winning field goal as the Tigers kept their record clear with

The Nation Today

By JAMES MARLOW

Yesterday President Truman sent his budget and a budget message to congress.

You'll be hearing about the budget for months because congress will be working on it for months. It means this:

1. In the message Truman says how much he thinks it will cost to run the government another year.

2. He has backed up the message with the budget itself. A stack of figures—in a volume thicker than a big telephone book—for each department.

Since money for running the government has to be approved by congress, the budget will be congress baby from now on.

From now until June it will try to see how the government can be run on less money than Truman says it needs.

It will check on each department, one at a time, and in the end vote what it thinks is enough money for each one.

HERE'S WHAT lies behind the budget and the work ahead:

James Marlow

Under a law passed by congress in 1921 the President must send his budget and budget message to congress when it comes back to work each January.

He doesn't ask the money for the year starting Jan. 1 and ending Dec. 31. It is for the fiscal year starting July 1 of one year and ending June 30 of the next.

The budget Truman sent to congress today is for the fiscal year 1949. It starts July 1, 1948 and ends June 30, 1949.

The job of gathering and checking on the money needs of each department goes on for months before the budget is sent to congress.

The figures in the budget include things like salaries, office expenses, foreign aid, and running the various departments like state, Army and Navy.

As each department finishes its figures, it turns them over to the budget bureau which is boss of the budget.

The experts in the budget bureau then call in the department heads to show why they need so much for this, so much for that.

Those experts then try to trim the departments' figures. They keep the President advised of what they're doing.

FINALLY, THE budget bureau puts all the figures together in one

fat volume and turns the whole thing over to the President.

Then he turns the budget over to congress—as he did today—with his budget message which is his explanation of why he thinks that much money is needed.

Once congress gets the budget, it starts to work. Or, rather, congressional committees do, one in the house, one in the senate. They're called the appropriations committees. By custom, the house committee starts first.

They hold hearings. The hearings will go on until next week. One by one each department's figures are examined.

The committeemen, sitting around a table, call in the department heads, one by one, to explain or justify the money they say they need.

Almost everything said at these hearings is recorded by stenographers. The testimony fills many volumes and many thousands of pages.

The committees whack and whittle on the President's budget figures, trying to cut them down and so cut down the cost of running the government.

THEN THEY'VE finished with a department, the committees draw up bills which they send up to the full house and senate for debate and vote.

In these bills the committee say how much they think each department needs. The house and senate bills on any one department pretty often differ.

Very often, the house and senate cut down the amount okayed by

Caesar Up Against Uncle Sam Again

Carmell, are shown outside the U.S. District Court in Chicago where Petrillo is on trial charged with violation of the Lea Act—forcing a Chicago radio station to employ more musicians than it needed—a case dismissed a year ago but sent back for trial by the U.S. Supreme Court.

their committees, or add to it.

In deciding how much money the government needs to run, congress has to know: How much can the government afford to spend?

The answer to this is also outlined in the President's message for in it he tells how much the government expects to collect in taxes during the year.

Unless congress can keep the spending less than the income, the

government will have to borrow money from the banks to keep running.

A government department doesn't always spend as much money as congress allows it. But sometimes, during the year, it finds it has to spend more.

In that case the department has to go back to congress and ask for a little more. That means more hearings and more voting.

SO THEY SAY

The reward we seek from our aid program is prosperity, peace, and security; that is enough.

—Dean Acheson, former Undersecretary of State.

The tragedy is not just that Congress is sitting almost idly by, the real tragedy is that, as matters stand today, Congress does not intend to take the necessary steps to halt inflation.

—Leon Henderson, former OPA Administrator, predicting further price rises.

In recent years, too much power has been concentrated in the leadership of our labor unions and that power has been abused.

—Harold E. Stassen, Republican Presidential candidate.

Relief for hungry people of the world can be only in goods and services, not in black market dollar bills.

—Charles P. Taft, president Federal Council of Churches of Christ in America.

Fisticuffs Recorded At Navarre, Dover; Salem One Of State's Unbeaten Outfits

By FRITZ HOWELL
Ohio AP Sports Editor

COLUMBUS, Jan. 12—Fisticuffs, forfeits, pop bottles, snowballs, scoring mixture, scoring sprees, setups and upsets featured Ohio's scholastic basketball program last week as the Buckeye boys offered a cage carnival with more angles than an octagon.

Biggest rumpus popped up at Navarre where East Canton battled the home towners for the Stark county Class B league leadership, but there was another at Dover as Newark Wildcats grabbed a 49-43 verdict sending them into the loop lead in quest of their third straight central Ohio league crown.

At Navarre, with five minutes to play and East Canton leading 29-20, a Navarre player, who had been ejected for personal fouls, became entangled with an East Canton player who was scrambling for the ball with two Navarres.

The player dual sparked a floor fight in which players and fans participated. Several spectators were felled. When quiet was restored, and the fans herded back to their seats, someone punched someone else, and the crowd surged to the floor again.

At that point the lights were turned out, a deputy sheriff assigned to the game called for reinforcements, and the referee forfeited the game to East Canton by 2-0. When police reinforcements arrived, peace had been restored and everyone was enroute home. Navarre officials expressed regrets over the incident.

At Dover, as Newark rolled out front in the latter half of the game, rowdies tossed snowballs at the players, and several pop bottles were rolled onto the court. Just before the finish a foul was called on a Dover player, but when the crowd boiled out on the floor, Newark didn't get a chance to shoot for the point—which it didn't need.

Down in Athens county, they don't know yet who won the Class B league game between undefeated Shade and Troy High of Goolville. The scoreboard showed a 41-40 victory for Troy, but Coach Robert Bobo of Shade said a player check showed a 40-39 win for his team. Both scorebooks were forwarded to Commissioner H. W. Emswiler by Referee Burton Massie and Bill Inban, and "Emmie" will decide the winner.

Meanwhile, Middletown's mighty men, winners of the Class A state crown three of the last four years, rolled on to their eighth straight victory with a 70-30 victory over Monroe, the "Middies" highest score in 27 years. Back in 1921 Middletown tacked a 75-14 setback on the Cincinnati University reserves, but dropped a 17-13 verdict to

Hamilton the following week. Findlay, semi-finalist in the 1947 Class A fight, now has 11 straight after defeating Bowling Green and Lima South last week, and the terrific Trojans are counting on reaching tournament play with a string of 19 wins. Findlay, averaging 50.1 points per game, against 25.1 for the foe, has an all-senior front line.

Other Class A squads with perfect records include Columbus St. Charles (9); Ashland and Pomeroy (8); and Toronto, Massillon, Salem and East Palestine (7).

In Class B, the undefeated contingent includes: Rockford (12), Garbion Hill (12), Bremen and Ridgeville Oilers (11), Newton, Kingston and Enon (10), and Mansfield Madison (8).

Once-defeated Class A clubs include Hamilton Catholic, Mansfield, Columbus Central and Portsmouth. Class B clubs with a lone loss include Minster, New Concord, Blanchester, Louisville, Canton Township and Fredericktown.

DISA AND DATA: Bob Payer, Salem's 6-6 center, made good on 10 of his first 11 shots against Ravenet, wound up with 27 points in the 67-43 victory, and has 141 for seven games. Sonny Campbell, Carbon Hill, and Bob Doup, of Amity won games single-handed last week. Campbell scored 27 in the 61-23 win over Union Furnace, and Doup set a new Knox county record of 27 in a 35-25 conquest of Bladenburg Gaylades. Coach Carl C. Bachman, now in his 14th year at Findlay, has seen his Trojans win 195 while losing 66.

Cecil Cartwright, Wilmington's fine center, broke a bone and tore the ligaments in his right ankle while warming up last week, and is out for the season. Add heroes—Chuck Gale of Massillon made two game tying free throws in the last six seconds, kept the score tied with another key toss in the overtime, and then connected for the winning field goal as the Tigers kept their record clear with

Will Be Revived Wednesday

ALLIANCE, Jan. 12—This is Mount Union college's first official basketball team, that of 1905-06. Three of its members played in Mount's first intercollegiate game in November, 1897, which will be commemorated Wednesday, by a contest between Hiram and Mount, the original opponents.

The three were J. D. Ford, H. V. Ross, and W. H. Rice. Rice

was captain of the squad Mount Union won the game 11-6.

Wednesday, this game will be replayed with the teams using the same rules as were observed in 1897, and wearing similar uniforms.

In the picture are, 1st row, left to right, Captain J. D. Ford, deceased; J. N. Marsh, Flushing, Ohio; 2nd row, E. J. Wightman,

Park ave., Mansfield, Ohio; P. H. Cneary, 1903 N. 46th Street, Seattle, Wash.; H. T. Norton, 5014 N. Hermitage Ave., Ravenswood Station, Ill.; J. Edgar Little, deceased, and H. V. Ross, First Methodist Church, Jamaica, N. Y.; 3rd row, H. M. Hatfield, Mount Morris, Pa.; R. M. Brown, deceased; and William H. Rice, Flushing, L. I., New York.

eraging 60 points in winning 10 games, and Forward Bob Hilyard has a third of them. Springfield's basketball team is as in-and-out as its football squad was. The Portsmouth Trojans, after winning seven straight, fell before Springfield 52-42 and the wildcats have won only five of nine.

Youngstown Cubs Win Another One

The Youngstown Cubs continued their winning ways in the All-American Professional basketball league yesterday by overwhelming the Zanesville Pioneers 50 to 36.

The contest was a walk-away for the league-leaders who were threatened only once by the Zanesville

quintet which pulled to within three points of the Cubs in the second period.

The Youngstown scoring was divided equally among the regulars and three substitutes used, while Cope and Jorgensen accounted for 21 of the losers' 36 points.

NOTRE DAME SAYS TITLE SHOULD BE WON ON GRIDIRON

Accepts Award As Nation's No. 1 Team At Banquet Monday Evening

SOUTH BEND, Ind., Jan. 13—Notre Dame, although defeated by Michigan in a post-season Associated Press poll of sports writers, says that "championships should be won on the field."

A Notre Dame official made that statement last night before about 1,200 persons at the annual football banquet at which Notre Dame was awarded the Dr. Henry L. Williams trophy, symbol of the National Football championship, presented by the University of Minnesota "M" club.

The Williams trophy was awarded Notre Dame on the basis of the Associated Press poll of sports writers at the close of the regular season Dec. 8. The post-season poll was taken after Michigan's stunning 49-0 victory over Southern California in the Rose Bowl game Jan. 1.

The Rev. John H. Murphy, Notre Dame vice president and chairman of the faculty board of control of athletics, took cognizance of both polls in a speech in which he declared: "I am sure that you and I and millions of other football fans—as well as the University of Minnesota 'M' club—have no reason to disagree with the voices of the nation's sports writers in the Associated Press poll at the end of the regular season, which has come to be accepted as the final word on this subject; and that we also heartily concur with the logical assurance of the AP that a post season poll was not intended to supersede the votes at the end of the regular season."

"And I am sure that all of us, including the coaches and players of the very fine Michigan squad of this year, believe that, whenever possible, championships should be won on the field."

Second Guessing

By DON E. BEATTIE
News Sports Editor

STATISTICS DEPARTMENT

Interesting to note from statistics compiled on the Quaker basketball season so far (with Bob Dixon doing the compilations) are the facts that this year's team is ahead of last year's in offensive average and that Bob Payer is well ahead of his terrific scoring pace of 1947.

The Quakers as a team are averaging 46.6 points a game, some 3.6 points above the 1946-47 averages in the first eight games. Defensively, however, this year's team is five points a game weaker than last season's. The 1946-47 Miller-coached aggregation had scored 343 points at this point last year while the current edition has marked up 373 points in eight games.

As for Payer, the big lad was considerably slower starting last season. He was averaging only 14 points a game at this time in 1947. Now his game average is 18.8 points per try.

Payer's total right now—131 points—is 38 points above his first eight-game total last season. He had only 113 then.

At that rate, if the big boy continues to stay at his present level, he will eclipse the all-time individual scoring record of 321 by at least 40 points. That is not including any possible tournament games.

Actually Payer didn't really hit his stride until after this point in the last season. He scored his best throughout the last half of the regular schedule and hit his peak of 29 points in a game against Alliance in the district tournament. His high for the regular season was 27 against Girard here.

It will be interesting to watch the progress of the team as compared to last year, when only East Liverpool posted a win over them in the regular schedule. Payer, of course, seems certain to set another all-time mark for the score and may even improve his current game average.

OUT ON A LIMB DEPT.

The week's schedule calls for some more prognostications from this corner, now riding along (after seven right and none wrong Friday and Saturday) with a 26-8 mark for a 76 per cent average.

Salem doesn't go to the boards until Friday night when Warren visits so we'll leave that guess until a bit later, say about Thursday.

Tuesday's games offer some choice meat for the prediction palate. For instance Columbiana entertains a North Canton aggregation that usually has a powerhouse.

This year, however, North Canton lacks the usual five-man power. The big gun is Jim Heckaman, who has 132 points in nine games. Outside of Jim, who has an honorable mention All-Ohio last season, there apparently isn't too much Canton power. We'll say Columbiana, because of the home floor, by seven points. It may be much closer, however.

Leotonia seems destined for a trouncing at Sebring. Bud Dean's charges, except for Eddie Sullivan, haven't been hitting the meshes too consistently. Sebring looks best by about 11 points.

Springfield Township wasn't good enough to best Columbiana earlier in the year and it hardly seems logical they can measure East Palestine, a team with seven straight, Let's string along with the McKinstry lads by 13 points.

New Waterford probably will have the eagle eye on Fairfield and should win by six. Wellsville, well-used to it by now, will be stomped by Toronto's Raiders. Give the Bengals a 15-point deficit if you ride on them.

A future Salem foe, Girard, is due to trample Youngstown East by eight points Tuesday.

ODDS AND ENDS

Salem's F. E. Cope expects a big turnover for the Warren game Friday. Seats will again be at a premium. The team has been away since its Jan. 2 tangle with Dayton. Apparently Massillon isn't as tough as their unbeaten record might indicate. East Liverpool led most of the way Saturday before bowing out in an overtime.

Officials here Friday, Cope reports, will be Bruce Hamm of Youngstown and Irwin Shopbell of Canton.

Preliminary at 7:30 and the variety game at about 8:45, as usual. General admission tickets will go on sale at the gate for about the first 300 persons in line. That gate opens at 6:30.

Frank Tarr's Frosh play Alliance State st. Junior High at 4 p. m. on Thursday Jan. 15.

FELLER'S SALARY HIGHEST EVER IN SEASON JUST PAST

Week Reports that \$87,000 Was Paid Fireballer For Last Year

CLEVELAND, Jan. 13—President Bill Veck of the Cleveland Indians revealed today that Bob Feller was the highest paid player in the history of baseball last year—with a total salary of \$87,000.

Announced that he will go into a salary huddle for next season with Feller here Wednesday, Veck said his star pitcher drew \$5,000 of his total income as expense money and some \$40,000 as a bonus based on attendance.

The earnings topped by \$7,000 the previous high of \$80,000 paid to Babe Ruth.

Feller's bonus money started at 750,000 admissions and ended at 1,250,000.

He is expected to have to pay about \$52,000 of this salary in taxes leaving him about \$32,000 clear. The expense money is tax free.

Veck added that the fireballer will have a chance to retain his place as baseball's highest paid player this year despite reported contracts of \$80,000 and \$70,000 to Ted Williams of the Red Sox and Joe DiMaggio of the Yankees, respectively.

However, to top those salaries, it probably will be necessary for the Indians to draw more people this season than last. Feller's bonus arrangement is expected to start operating at a greater number of fans this year.

Veck said he doubted that he and Feller would arrive at a contract agreement in their first conference Wednesday, but added "there is a possibility."

Hamilton Can Make Own Choice At Navy

BALTIMORE, Jan. 13—Capt. Tom Hamilton, a native of Columbus, Ohio, will be given the choice of remaining Navy's head football coach or becoming athletic director at the Naval academy for 1948.

That's the report from the Naval academy where a group of former star athletes has been reviewing academy sports for the past week.

Rear Admiral James L. Holoway, superintendent, is expected to make an announcement on the coaching situation this week.

Capt. Hamilton, back from a meeting in New York, declined to discuss the situation, but it will not be surprising if he elects to accept the post as athletic director.

The announcement of Admiral Holloway will settle the question of whether a civilian coach will be hired at the academy or the practice of using Navy officers will be continued.

MACKENZIE'S Column

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Moscow denials of rumors that Premier Stalin is dead will, one suspects, be received with relief in the capitals of the Western democracies against which the Soviet leader is directing the Communist assault.

I quite realize that such a statement seems to contain conflicting thoughts — and I could be wrong in my viewpoint. However, it strikes me that we are dealing with an idea which at first blush seems absurd and yet actually is correct — in short, with a first class paradox. My reasoning is this:

The conflict between the Russian bloc and the western powers is in such a dangerous state that a bad-misstep could produce another world war. Both sides recognize this

and are proceeding with care because neither wants to see a third global upheaval. Thus so long as steady hands remain in control in Red camp, the likelihood of a major explosion in the near future isn't great.

Well, now, Stalin's word is supreme and final in Russia. For more than a score of years his policies have dominated both home affairs and foreign relations, including the handling of the Bolshevik world revolution for the spread of Communism. His foreign policy, while going the full limit of daring in the interest of Soviet expansion, apparently has been aimed at avoiding major warfare.

SO IF STALIN'S control suddenly were removed, and affairs were placed in charge of less dominant and shrewd men, a disastrous situation could arise. For example, an over-ambitious decision in Moscow regarding the fiery Balkan situation might touch off the powder keg — and that's only one of many zones which are on the danger list.

No, I think that right now western diplomacy would prefer to see Stalin at the wheel in Moscow — and this despite the fact that he probably is regarded generally by opponents as being the most dangerous man ever pitted against our way of life. It isn't that democracy loves Stalin the more but that it likes the idea of possible hot-headed instability in Moscow the less.

This is a case where dislikes shouldn't be allowed to obscure vision. Despite democracy's dislike of everything Stalin stands for, the fact remains that he is one of the most powerful leaders of all history, and his leadership is based on undoubted genius. Having said this it may be pointed out that powerful leadership and genius aren't necessarily qualities of goodness.

Stalin, more than any other individual, would seem to be responsible for the building of Russia's house of Communism. He inherited theories but the interpretation and practical application have been his.

AND APART from his political and economic operations, he is given credit for having been in fact the commander in chief of the Russian forces during the late war. All strat-

Presidential candidate Harold E. Stassen, who named Brig.-Gen. Wallace H. Graham (right), the President's physician, as one of "about 11" government "insiders" who made a total of more than \$4,000,000 speculating in commodity markets since the war, passes the General on his way out of the Senate Committee room in Washington.

egy is said to have passed through his hands.

Of course, there are many observers who believe that when Stalin does give up the helm of state, the succeeding regime may be comprised of individuals who may sacrifice discretion to ambition and that thus Communism will be weakened. Obviously that's a bit of wishful thinking which is on the knees of the gods.

In any event, the known qualities of Stalin as chief of state would seem to be preferable to uncertainties in these perilous days when the world is just beginning to emerge from the Hitlerian catastrophe.

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduces the red-blood strength—and, starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is not organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freedom and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.
